

Downloading Your Presentations In MyMediasite

Find the presentation you want to download in your MyMediasite account, then click the “Edit Details” button on the right.

Within the details window, click the “Delivery” tab.

In the delivery tab, check the “Publish to Go” option and then click the “Save” button on the top right.

[Download to Computer](#)

Once you’ve done that, you can click the “Download to Computer” button found on the right, underneath the “Edit Security” Button.

You may need to give the publish to go package time to finish processing before you can download your presentation.

Once it has finished processing, you can click “Download Publish to Go” to download your presentation.
