Mediasite 7

Mediasite brings easy-to-use tools for creating and sharing content. From any course, faculty can create lectures, screencasts and automatically publish to anywhere in the LMS. View and stream course video and stream course video most engaging learning and sharing tools.

Mediasite 7 introduces t

Click on Mediasite, then the Add App button.

Add App ×

Name

Consumer Key

Shared Secret

Just the fully qualified domain name of your Mediasite instance.

Use Mediasite site root settings. However, make sure that the site root is set up with SSL and a trusted certificate issued by a CA.

You will then see a popup window. You will add the following information (which may change at some point):

Name: Mediasite 7

Consumer Key: Canvas_T3st

Shared Secret: CanvasS3cr3t

Qualified domain: mediasite.video.ufl.edu

Site Root: https://mediasite.video.ufl.edu/mediasite

The screenshot shows the 'External Apps' section in the Canvas LTI tool management interface. At the top, there are navigation tabs: 'Course Details', 'Sections', 'Navigation', 'Apps', and 'Feature Options'. The 'Apps' tab is active. Below the tabs, there is a 'View App Configurations' button. A red arrow points from this button to the 'mediasite' app card. The app card for 'mediasite' is shown as 'Installed' and includes the logo 'mediasite by sonicfoundry'. Other apps shown include 'ares automating reserves', also marked as 'Installed'. Below the app cards, there are filter buttons for 'All', 'Not Installed', and 'Installed', along with a 'Filter by name' search box.

After you hit Add App you will see Mediasite as an Installed App. Hit the “View App Configurations” Button.

Locate the Mediasite 7 app in your list of installed apps. Click on the Cog button and then Edit in the dropdown that subsequently appears.

A screenshot of the 'Edit App' dialog box for the Mediasite 7 application. The dialog has a title bar with 'Edit App' and a close button. It contains several input fields: 'Name' (Mediasite 7), 'Consumer key' (Canvas_T3st), 'Shared Secret' ([Unchanged]), 'Launch URL' (https://mediasite.video.ufl.edu/mediasite/LTI/), 'Domain' (mediasite.video.ufl.edu), and 'Privacy' (Public). Below these is a 'Custom Fields' section with a text area containing 'Custom Fields'. A red arrow points from a green callout box to the 'Launch URL' field. The callout box contains the text: 'Replace this link with your catalog or presentation link.' At the bottom of the dialog are 'Cancel' and 'Submit' buttons. A small note at the bottom left of the dialog reads 'One per line. Format: name=value'.

In the entry field labelled Launch URL: Type your catalog or presentation link.

HOW TO ADD MEDIASITE LINKS TO THE COURSE

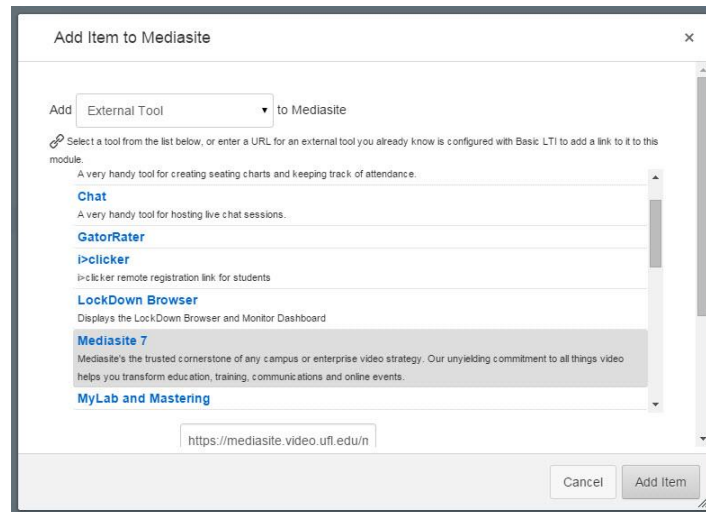

Click on Modules on the left hand side of the screen.

Then click the + Module button and then call it whatever you want.

Hit the Plus button

Select “External Tool” from the dropdown. Then click on Mediasite. As you see, it will populate the URL of the catalog that you entered.

After you hit Add Item, you will see a Mediasite link. Click on it and you should see the catalog that you entered.

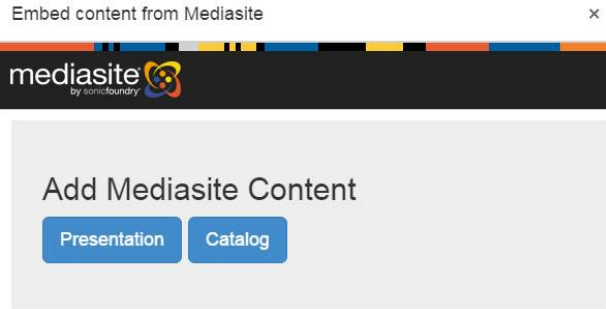

HOW TO EMBED MEDIASITE VIDEOS IN CANVAS

As of October 2015, Canvas is able to embed Mediasite videos into pages and lessons. Anywhere that you have access to a WYSIWYG Text Editor, you should be able to embed Mediasite videos.

For the purpose of this training document, I am going to be editing a “Page” in Canvas.

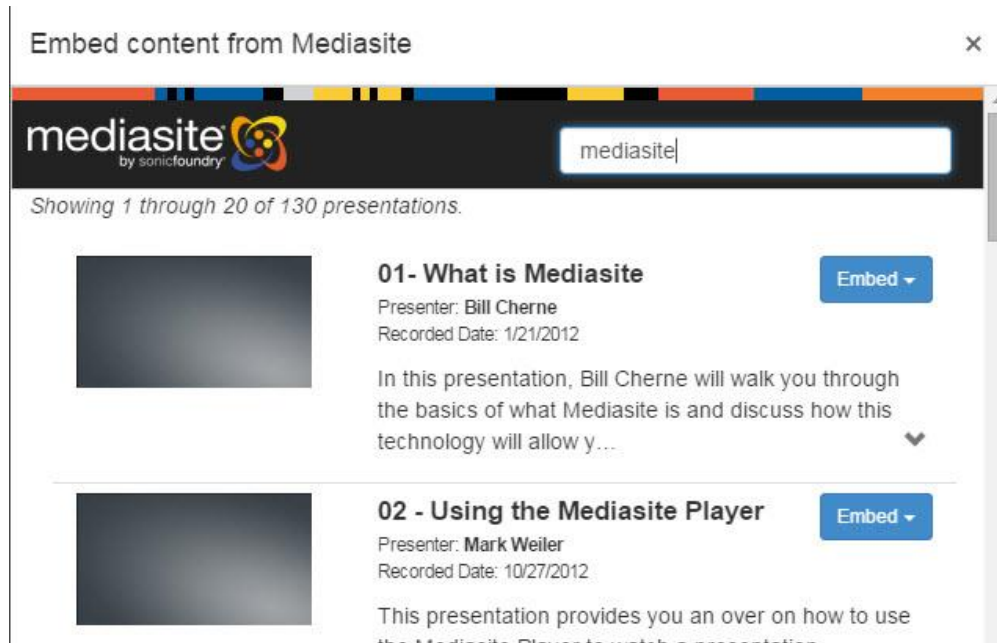

Within the text editor, you should see a blue downward-facing triangle button. Click on it and the Mediasite option will appear.

You will be given the choice to embed a Presentation or a catalog.

Either option will bring you to a Search bar. Simply type in the name of the presentation or catalog in the search bar.

You will be shown an “Embed” button. Click this and you will be given different options for embedding. Please see this video training for examples of each:
